If you cannot be present at our location to sign up for the service, the United States Postal Service (USPS) form 1583 must be notarized. International applicants might need to contact the local U.S. embassy for notary service or a local official to have their signature witnessed and stamped. If you would like family members, friends or associates to also receive mail/packages in your mailbox, they must each have a separate USPS Form 1583 & Acknowledgement form completed with the proper identifications and home address verification.

We can open a mailbox for you when we receive the forms along with your payment. If you need to open a mailbox immediately, you can complete our "Credit Card Authorization" form and fax or email all the forms to us. Once we receive these forms via fax or email, we can provide you with a private mailbox number on the same day. Please remember to mail us the original forms after faxing/emailing all the forms. We will hold your mail/packages for you until we receive the original forms.

If you would like us to forward your mail/packages to you, we can do so weekly or on call. You need to have a minimum of \$30.00 deposit for mailing/shipping your mail/packages. Please review our "Mail/Package Forwarding Policies & Fees".

If you have trouble downloading forms, please call us and we can fax or email the forms to you.

We look forward to serving you soon.

Sincerely,
